DEAR AME:

I wish to add my support to Doctor Hansen's letter to you. I realize that Aerospace Medicine is most likely not your prime specialty, but you have indicated your interest by becoming an AME.

It is my opinion that since you have elected to practice Aerospace Medicine, it behooves you to enhance your expertise and maintain your currency in the field. There is no question that the only professional organization that provides a forum for you is the Aerospace Medical Association. For the 500 or so of you who are already members I say "great", for the other 7000 or so of you, please consider the professional benefits of joining.

Sincerely,

Frank H. Austin, M.D.
Past President
